

JA Our Families®

JA Our Families introduces students to entrepreneurship and learning objectives for first-grade social studies, including families, neighborhoods, money, and needs and wants. Through hands-on classroom activities, the students explore the ways in which businesses provide goods, services, and jobs for families.

Following participation in the program, students will be able to:

- Describe the similarities and differences found in families.
- Begin to understand that families must earn money to pay for the things they need and want.
- Recognize the importance of entrepreneurial businesses to the neighborhood.
- Identify the goods and services provided by local businesses.
- Explain one of the entrepreneurial characteristics: Satisfy a Need or a Want.
